Subject: wasserman drafting request

Hi, Debra,

Per my voice mail message, here is Sheldon's drafting request...

He would like a bill drafted for next session (whenever that process can begin), to require Wisconsin hospitals to computerize certain records. The details are as follows:

- the bill would affect hospitals with 100 beds or more
- the system that would be required will consist of:
 - a.) an order entry system including, but not limited to, lab, ultrasound, pharmacy and radiology services and nursing orders
 - b.) a data retrieval system including, but not limited to, all lab, ultrasound and radiology results
- hospitals would have three years from the effective date of the bill to comply

I know the details are sketchy, but that's all I can get out of him at the moment. Please let me know if you have questions and I'll put him in touch with you.

Thanks!
Sarah

D-NOTE

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

Gen. Cat.

1 AN ACT /...; relating to: requiring certain hospitals to establish a data entry and
2 retrieval system for the electronic storage of records.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Administration must prescribe, by rule, procedures for transferring public and other records of the University of Wisconsin Hospitals and Clinics Authority to optical disk or electronic format and for the maintenance of those records.

This bill requires that by January 1, 2006, every hospital with 100 or more approved beds establish a data entry and retrieval system for the electronic storage of records, including records of pharmacy, laboratory, ultrasonography, and radiology services and service outcomes. The University of Wisconsin Hospitals and Clinics Authority is exempted from this requirement.

For further information see the ***state and local*** fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 SECTION 1. 50.537 of the statutes is created to read:
4 **50.537 Records in electronic format.** Except as provided in s. 16.611, every
5 hospital with 100 or more approved beds shall, by January 1, 2006, establish a data

1 entry and retrieval system for the electronic storage of records, including records of
2 pharmacy, laboratory, ultrasonography, and radiology services and service outcomes.

To Representative Wasserman:

Please review this draft, particularly the exception to s. 16.611, stats. The instructions for this request were rather vague; does this bill do what you want? Is "service outcome" an appropriate terminology for "results"? Do you want to provide for "optical disk" storage? Do you want to require hospitals to use standards or procedures developed by DOA under s. 16.611 (2), stats?

Please let me know if I may assist you further with this bill.

To Representative Wasserman:

I consulted Richard Megna of DHFS concerning the \$2,000,000 annual appropriation increase for this bill. It is the maximum amount that DHFS would be required to pay if all hospitals established physician order entry record systems.

Please note that I made this act effective on January 1, 2004. I did so to avoid action of s. 16.47 (2), stats., which does not permit either house of the legislature to pass a bill that contains an appropriation of or increases the cost of state government by more than \$10,000, except for emergency appropriations bills, until the budget bill has passed both houses. Alternatively, you may wish to have the bill take effect on publication and consider introducing it after passage of the budget bill. Also, of course, you may at some point wish to have it redrafted as an amendment to the budget bill.

If you have any questions about the bill or need any other assistance, please don't hesitate to call.

* Also, please note that I renumbered s. 49.45(6v) and changed applicable cross-references in ss. 20.435 (4)(b) and (7)(bd); I did this solely in order to group s. 49.45 (6ur) (created in this bill) with other hospital provisions under the Medical Assistance statute. The renumbering achieves no other effect.

Hi, Debora,

Sheldon has reviewed LRB 0293. He has two changes at this point. He wants to change the effective date to January 1, 2005 if possible, and remove the 100 bed limit so that the bill would apply to all facilities, large or small.

Thoughts?
